Adding Expenses

- Can add one expense at a time
- Enter the purchase name and how much the item cost
- The date is optional. No date implies it was bought today
- Select one category the purchase belongs to:

- Have an icon for each for the expense list view

Expenses Detailed View

- Have an interactable calendar,
 - pressing on a day will display:

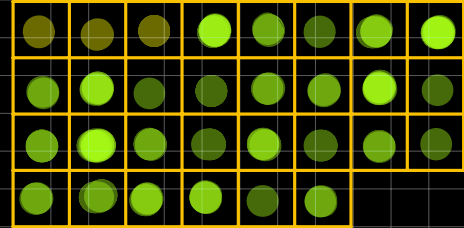

\$20.18 spent on 09/20/24

- have sorting \equiv functionality: Sort by date, cost, or category
- can also have filters: a certain category only, like only subscriptions
